

PART I – THEORY

Revise Unit 9,10,11

1. Phonetics:

- stress in two-syllable words
- rising and falling intonation for questions
- stress in three-syllable words

2. Vocabulary:

- Lexical items related to the topic “Festivals around the world”.
- Lexical items related to the topic “Energy sources”.
- Lexical items related to the topic “Travelling in the future”.

3. Grammar:

- Yes/No questions
- Present continuous
- Future simple
- Possessive pronouns

4. Communication:

- Expressing disappointment
- Talking about the advantages and disadvantages of different energy sources
- Talking about why a means of transport will/won't be popular

PART 2 – PRACTICE

You will listen to the following conversation. For each question, circle the correct option A, B, C or D. You will listen TWICE.

Question 1. What can cause water pollution on the beach?

- A. natural gas B. oil C. coal D. smoke

Question 2. How can natural gas make it rain more?

- A. by polluting the ocean B. it makes the planet colder
C. it blows through the city D. by warming the planet

Question 3. What causes air pollution that can blow through the city and hurt someone's throat?

- A. burning coal B. solar power C. oil spill D. renewable energy

Question 4. Which renewable energy sources pollute less than non-renewable energy sources?

- A. coal power, solar power, hydropower B. solar power, oil power, hydropower
C. wind power, oil power, solar power D. wind power, solar power, hydropower

Question 5. What is the topic of the conversation?

- A. oil, natural gas, and coal are renewable energy sources
B. natural gas causes the planet to warm
C. oil, natural gas, and coal pollute the community
D. oil pollution can be found on the beach

Choose the word whose underlined part is pronounced differently from the other three in each question.

Question 6. A. champagne B. machine C. parachute D. cheer

Question 7. A. electric B. driverless C. inside D. introduce

Choose the word which has a different stress pattern from the other three in each question.

Question 8. A. panel B. pollute C. plentiful D. positive

Question 9. A. appear B. expensive C. success D. autopilot

Choose the word or phrase that best completes each sentence below.

Question 10. With teleportation, you disappear at a place, and then _____ in another place seconds later.

- A. appears B. reappears C. appeared D. reappear

Question 11. Viet Nam still relies mostly _____ non-renewable energy sources.

- A. on B. at C. about D. in

Question 12. The mother cat and kittens were napping in the sunshine.

- A. his B. it's C. her D. hers

Question 13. In the future, the wind and the sun will be used as the main _____ energy sources.

- A. environmental friendly B. environmentally friendly
C. environmental friend D. environment friendly

Question 14. Which _____ of transport do you think will be used in the future?

- A. meanings B. mean C. means D. meaning

Question 15. The Segway, which is a _____ vehicle, will be a success.

- A. two wheels B. two-wheels C. two-wheel D. two wheel

Question 16. Every day, over 1,000 new cars are added to the city and the city of over 20 million people is getting more and more

- A. difficult B. expensive C. famous D. gridlocked

Question 17. Alternative energy sources are _____, clean, safe, and cheap.

- A. limited B. exhausted C. abundant D. expensive

Question 18. Her friend says it's _____, but I think it belongs to them.

- A. her B. his C. our D. theirs

Read the following sign or notice and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions.

Question 19. What does the sign say?

	<p>A. You should use more water. B. You shouldn't use water. C. You should turn off the tap. D. You should save water for our children.</p>
---	---

Question 20. What does the sign say?

	<p>A. You don't have to talk in this area. B. You have to keep silent in this area. C. You have to take the exam in this area D. You don't have to make any noise during the exam.</p>
---	--

Mark the letter A, B, C, or D on your answer sheet to indicate the correct option that best fits each of the numbered blanks.

In Western countries, electricity, gas, and water are not (21) _____ but necessities. Companies now realize that consumers want (22) _____ that will not only work effectively, (23) _____ save money.

For most North American households, lighting (24) _____ for 10 percent to 15 percent of the electricity bill. However, this amount can be reduced by replacing an ordinary 100-watt light bulb with an energy-saving bulb. These bulbs use a quarter of the electricity of standard bulbs and last eight times longer. Therefore, consumers can save about US\$7 to US\$21 per bulb. In Europe, there is a labeling scheme for refrigerators, freezers, washing machines and tumble dryers. The label tells the consumers how much energy efficiency each model has, compared (25) _____ other appliances in the same category. Ultimately, these innovations will save money as well as conserve the Earth's resources.

Question 21. A. coming B. launching C. peaking D. luxuries

Question 22. A. spaceships B. products C. tickets D. weapons

- Question 23.** A. into B. towards C. with D. but also
Question 24. A. like as B. accounts C. such as D. as good as
Question 25. A. with B. in C. at D. on

Mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the following questions.

Right now, a private company is developing something called ET3. ET3 stands for Evacuated Tube Transport Technology.

The ET3 system would reportedly be able to take passengers from New York to Beijing in just two hours. Here is how it **works**. A vacuum tube goes all the way from New York to Beijing. The tube is only a few meters wide. Capsules move through the tube. Six people can sit in one capsule. The capsules use electricity instead of gasoline. For international travel, the capsules can travel at about 6,500 kilometers per hour. That is much faster than an airplane!

So how can these capsules travel so fast? The answer is that there is no air inside the tube. When airplanes fly, they have to move through the air. The air resistance slows the airplanes down. Because there is no air in the ET3 tubes, the capsules are able to move at a very high speed. Besides, the capsules are quite light. They only weigh 183 kilograms.

Of course, ET3 doesn't exist yet. Developers still have to solve a lot of problems. The biggest problem is that right now, ET3 would be far too expensive. In order to make ET3 cheaper, we will need much better technology. Maybe someday, you will be able to have lunch in New York and dinner in Beijing.

Question 26. Why is ET3 clean?

- A. It uses electricity.
- B. It doesn't use gasoline or electricity.
- C. It uses a cleaner kind of gasoline.
- D. It is made of a clean kind of material.

Question 27. The word "**works**" in paragraph 2 is closest in meaning to _____.

- A. earns money B. operates(vận hành) C. succeeds D. travelling

Question 28. All of the following are factors that ET3 travel fast EXCEPT _____.

- A. the capsule is quite light
- B. there is no air inside the tube
- C. there is no air resistance during the trip
- D. travelling takes place in the air

Question 29. What is a problem with ET3?

- A. We don't know how to build its capsules.
- B. Most people don't want to use it.
- C. It is far too loud.
- D. It is far too expensive.

Question 30. According to the passage, which statement is NOT true?

- A. There is no air in the ET3 tubes.
- B. Speed in ET3 system is 6,500 km/h for international travel.
- C. Each ET3 capsule can carry up to six people.
- D. ET3 can travel a little faster than an airplane.

Question 31. What can be inferred from the passage?

- A. There is still a lot to do before putting ET3 into operation.
- B. In the future, people will mainly use ET3 to travel abroad.
- C. ET3 will soon be cheaper.
- D. ET3 won't be used domestically due to its high cost.

Mark the letter A, B, C, or D to indicate the word or phrase that is CLOSEST in meaning to the underlined part in the following question.

Question 32. People can sleep while driving in a driverless car.

- A. pilotless B. driven C. electric D. controlled

Question 33. The flight was cancelled because of the bad weather.

- A. affected B. put off C. called off D. continued

Mark the letter A, B, C, or D to indicate the word or phrase that is OPPOSITE in meaning to the underlined part in the following question.

Question 34. A solo-wheel is fun and simple to ride.

- A. hard B. dangerous C. complex D. easy

Question 35. I think travelling by teleporter will become possible soon.

- A. probable B. impossible C. potential D. achievable

Rewrite the following sentences using the words given.

Question 36. Natural gas is cheaper and less polluting than coal.

→ Coal is

Question 37. Coal is the most polluting of fossil fuels, but it is still the largest source of energy worldwide.

→ Although

Question 38. Normal train isn't as fast as bullet train. (than)

→

Question 39. The date for La Tomatina is the last Wednesday of August. (place)

→ La Tomatina

Question 40. Thousands of people lined the streets because they wanted to watch the massive colourful parade.

(in order to)

→ Thousands of people

Give the correct form of the words to complete the sentences.

Question 41. We need _____ for all activities in daily life (ELECTRIC)
such as cooking, learning, entertaining...

Question 42. Wind, sun and water are _____ sources of (RENEW)
energy.

Question 43. Right after watching the film, she felt _____, (SLEEP)
so she went to sleep.

Question 44. It is important for all road _____ to follow (USE)
the rules about road safety.

Question 45. The _____ must always keep his hands on (CYCLE)
the handlebars.

Choose the letter A, B, C or D to indicate the correct answer:

(1) **Question 46.** Our school held a small festival last week to celebrate the end of the semester. _____.

- a. A large number of students and teachers joined the festival and enjoyed the exciting atmosphere.
b. There were many interesting activities such as games, music performances, and food stalls for students.
c. In the end, it became a memorable event that everyone talked about for many days.

- A. a-b-c B. b-a-c C. a-c-b D. c-b-a

Question 47. Choose the sentence that can end the text in question 46.

- A. The festival helped students relax after a long and stressful semester.
B. Some students decided to stay at home that day.
C. We didn't have enough time to prepare everything carefully.
D. Nobody knew about the festival before it started.

(2) **Question 48.** More and more people are using renewable energy in their daily lives to protect the environment. _____.

- a. These sources of energy are cleaner and safer for the planet.
- b. Solar panels can create electricity from sunlight and are easy to install on rooftops.
- c. Wind energy is also widely used in many countries with strong winds.

A. a-b-c B. b-c-a C. b-a-c D. c-a-b

Question 49. Choose the sentence that can end the text in question 48.

- A. Many people still waste electricity every day.
- B. Renewable energy plays an important role in reducing pollution today.
- C. Some people don't like using electricity.
- D. Energy is not important in modern life.

(3) Question 50. Many cities are trying to improve public transport systems for future travel. _____.

- a. As a result, people are encouraged to use public transport more often.
- b. They are building faster trains and more convenient bus routes for citizens.
- c. This helps reduce traffic jams and air pollution in crowded areas.

A. a-b-c B. b-c-a C. b-a-c D. c-a-b

Question 51. Choose the sentence that can end the text in question 50.

- A. Many people prefer walking long distances every day.
- B. Public transport is becoming more important in modern cities.
- C. Some cities do not have any buses or trains.
- D. People don't like traveling at all.

The end

Practice makes perfect!
